## Matching the Apron to You

Techno-Aide Sizing Charts are based on averages. But let's face it... nobody is average! So, in order to get the Best Fit for You, please consider the following when measuring yourself for either a Standard or a Custom garment:

**PROTECTION IS PRIMARY:** Why are you wearing an apron? Protection from radiation! Some companies promise lighter weight garments, but their garments just don't measure up to proper specs. At Techno-Aide, we're much more concerned about your health and safety. Comfort is important, and while our garments are comfortable, comfort will always take a back seat to protection. Isn't that why you're purchasing Protective Apparel?

**CIRCUMFERENCE CONSIDERATIONS:** When measuring for a Front Protection Apron, measure from one side of the widest part of your body, around to the other side - the actual distance you want protected. Then, tell us if that measurement is your chest, tummy, or hips.

**HEIGHT CONSIDERATIONS:** In relation to your circumference, do you have a long or short torso? We want to make sure that you are adequately protected!

## Best-Fit Sizing Charts
