

# Vinyl Bolsters

2019  
PRODUCT  
GUIDE

## CHECK OUT WHAT'S NEW FOR 2019

2019 will be another year of innovation for Techno-Aide. Providing a safer working environment is our top priority. You will see an assortment of new products and some incredible upgrades to our existing line designed to make your job easier and safer. This year Techno-Aide once again leads the way in innovation and protection by introducing our new infection-resistant vinyl bolsters.

With hundreds of options available today, Techno-Aide makes the choice easy and affordable without sacrificing patient's health. This new bolster line protects against the growing threat of infections like MRSA and aggressive antibiotic-resistant bacteria. These "super bugs" are one of the largest threats the healthcare industry faces today. Techno-Aide is here to protect technologists' and patients!

Utilizing a heavy medical-grade, anti-microbial blue vinyl fabric is sewn and welded at all seams to preserve the core material. Completely sealed and secure, these vinyl bolsters inhibit the growth of any harmful bacteria inside and out. Without sacrificing convenience, our one of a kind bolsters can be cleaned with any standard approved hospital disinfectant. Compared to other unsealed and unsanitary "hook and loop" closures, these bolsters are the clear and easy choice for the future.

This catalog will showcase our most popular sizes and shapes. Don't forget, Techno-Aide is happy to offer custom ordering for any shape or size you can imagine. You need it, we can make it!

### NEW Sealed Vinyl Bolsters Feature

- A Firm high density urethane foam core for maximum support
- Waterproof outer coating for superior infection control
- Easy to clean surface for infection control
- Increased durability and tensile strength
- Radiolucent (seams will show)
- Safe for multi-patient use
- Non-removeable cover

**Completely sealed seams for full protection and sanitation!**

**Unsealed seams. Unsanitary and decreased protection.**

## Vinyl-Covered Bolster Blocks

Reusable blocks, bolsters, and wedges are manufactured from **firm**, high-density urethane foam. Royal Blue outer covering is durable, heavy gauge, reinforced vinyl. Seams are sewn and tear resistant. Easy to clean Bolsters are **RADIOLUCENT**, however, the seams may show. Provides excellent support for a wide variety of imaging needs. Stocked bolsters are labeled in **Green**.
