Techno-Aide Best Fit Sizing Guide

Techno-Aide Sizing Charts are based on universal body sizes. But let's face it... nobody is average! A great apron won't fit like a pair of jeans or a suit. **Aprons are meant to fit multiple body types and sizes!** So, in order to get the "Best Fit for You," please consider the following when measuring yourself for a standard garment:

PROTECTION IS PRIMARY: Why are you wearing an apron? Protection from radiation! At Techno-Aide, we understand that comfort is important, but never as important as protection. Our aprons are designed to keep the user safe above all else. But who says you can't add a little style and comfort along the way?

CIRCUMFERENCE CONSIDERATIONS: When measuring for a Front Protection Apron, measure from one side of the widest part of your body, around to the other side - the actual distance you want protected. Then, tell us if that measurement is your chest, tummy, or hips.

HEIGHT CONSIDERATIONS: In relation to your circumference, do you have a long or short torso? We want to make sure that you are adequately protected!

Front Protection Apron

Notes About Measuring!

Sizes shown for apparel (other than front protection) are **ACTUAL** body measurements.

All lengths are from the **sternal notch or waist** downward, depending on the garment.

One Size to Fit Them All!

Don't get hung up with complicated customization!

Standard sizes are designed to fit nearly every body type. **As shown to the right**, our standard Large Flex-Guard can be worn properly by three people with completely different body types!

Use our expert guides to find the perfect size today!

*Each person is wearing a standard (non-custom) large Flex-Guard apron appropriately. Photos provided to show standard sizing fit. Apron shown in default 61-Sapphire material.

Custom Apparel Quote Form

Please fill out the following form and submit for a pricing quote on all custom apparel. All custom sized apparel will include an additional fee for each item ordered. Custom sized apparel is non-refundable, non-returnable.

Custom Sized Apparel

Please use the provided CAT numbers and pricing for each custom apparel item.

ACP - **\$125** fee for custom Aprons, Vests & Skirts

ACP2 - **\$45** fee for other custom apparel items (ex: thyroid guards, gonadal guards)

*3X is the maximum size for standard (listed) pricing. All sizes exceeding 3X will be considered custom products. Additional fees apply.

COMPLETELY SEALED VINYL BOLSTERS

Providing a safer working environment is our top priority. With hundreds of options available today, Techno-Aide makes the choice easy and affordable without sacrificing patient's health. This new bolster line protects against the growing threat of infections like MRSA and aggressive antibiotic-resistant bacteria. These "super bugs" are one of the largest threats the healthcare industry faces today. Techno-Aide is here to protect technologists' and patients!

Our heavy-duty, medical-grade, anti-microbial blue vinyl fabric is sewn and welded at all seams to preserve the core material. Completely sealed and secure, these vinyl bolsters inhibit the growth of any harmful bacteria inside and out. Without sacrificing convenience, our one of a kind bolsters can be cleaned with any standard approved hospital disinfectant. Compared to other unsealed and unsanitary "hook and loop" closures, these bolsters are the clear and easy choice for the future.

This catalog will showcase our most popular sizes and shapes.

NEW Sealed Vinyl Bolsters Feature

- A Firm high density urethane foam core for maximum support
- Waterproof outer coating for superior infection control
- Easy to clean surface for infection control
- Increased durability and tensile strength
- Radiolucent (seams will show)
- Safe for multi-patient use
- Non-removeable cover

Completely sealed seams for full protection and sanitation!

Unsealed seams. Unsanitary and decreased protection.

Stocked Vinyl-Covered Positioning Bolsters

Reusable blocks, bolsters, and wedges are manufactured from firm, high-density urethane foam. Royal Blue outer covering is durable, heavy gauge, reinforced vinyl. Seams are sewn and tear resistant. Easy to clean Bolsters are **RADIOLUCENT**. Seams may show. Provides excellent support for a wide variety of imaging needs.

X-Ray Marker Reference

“Each radiograph must include an appropriate marker that clearly identifies the patient’s right (R) or Left (L) side. Medico-legal requirements mandate that these markers be present. R and L markers must be used with CR and DR digital imaging. The development of digital imaging and the use of CR and DR have enabled an environment in which the R and L markers can be placed on the image electronically. This is not recommended because of the great potential for error and legal implications. Anatomic markers should be placed on the CR cassette or DR table similar to screen-film cassettes.”
