2020
PRODUCT
GUIDE

CHECK OUT WHAT'S NEW FOR 2020

Techno-Aide is ready to kick 2020 off with some amazing new products! Here are a few key highlights you can't afford to miss!

New Knee Wedge Positioners | PG.9

Techno-Aide now offers three knee wedges that maximize patient comfort and work with a variety of MRI table widths.

Eight New MRI Positioner Kits | PG.10

New kits for GE, Hitachi, Siemens and Toshiba Tables.

New MRI Head Pillow | PG.11

Designed to help keep patients comfortable during imaging.

New L-Shaped Arm Pads | PG.11

Designed to keep patients arms close to the body for easy positioning.

New MRI Stretcher | PG.7

Features a wider bed platform that will hold up to 500 lbs. Fully loaded with built-in IV pole and oxygen cylinder holder. A must have for any MRI department!

New Green and Red MRI Safe Labels | PG.18

Label products that stay in an MRI area. Available in both green and red to conform to your facilities safety standards.

New Handheld Metal Detector | PG.21

The only handheld patient screening device to separately screen ferrous and non-ferrous metallic items.

New Stethoscope and Sphygmomanometer | PG.22

Perfect for adults and children.

MRI Products and Safety

Magnetic Resonance Imaging is a process that requires specialized products designed specifically for specially built rooms. Techno-Aide provides a vast offering of products ranging from safety signs, cleaning tools, oxygen systems and transportation devices. Ensure the safety, cleanliness and efficiency of your MRI facility with our premium products by browsing the Techno-Aide website and this digital catalog. Look for many NEW Products that are safe up to 7 Tesla!

MR

 = **MR Safe** (no known hazards)

 = **MR Unsafe** (danger/known hazard)

 = **MR Conditional** (no hazards up to 3-Tesla)

MRI Earplugs

Economical protection. Use w/ headset or alone. Bulk packaged as 1000 pcs.

#MBE-29

MRI Step Stool w/ Handrail

Stainless steel construction. Step: 16" w x 12" d x 8.5" h. Handrail height: 41". "MRI Green" mat; rubber tips.

#MBS-65

Metal Detector

Save patients and staff from embarrassing and hazardous situations.

#MBM-MD

MRI Chairs & Stools

Screw-post height adjustment. Seat features 4" padding and upholstered in "MRI Green."

MRI IV Pole

Extends from 48" to 92.5". Has a 24" diameter base and includes 2" swivel casters.

Ships: Pole at 3 lbs and Base at 7 lbs.

CAT#	Description
MBI-70	2-hook iv pole
MBI-75	4-hook iv pole

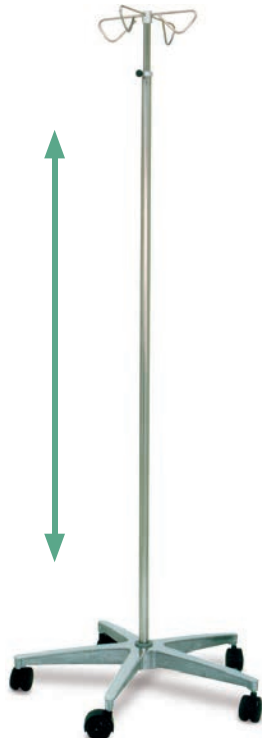

Easy Extension

Easily extends from 48" to 92.5"

Smooth Movement

5 individual 2" swivel casters for easy movement!

#MBM-80

MRI Step Stool

Stainless steel construction. 500 lb weight capacity. Mat is featured in "MRI Green." Includes rubber tips. Available in non-ferromagnetic.

CAT#	Description	Dimensions
#MBS-66	Standard	16"w x 12"d
#MBS-66NF	Non-Ferromagnetic	16"w x 12"d

MRI Step Stool with Handrail

Stainless steel construction. 500 lb weight capacity. Handrail height: 41". Mat is featured in "MRI Green." Includes rubber tips. Available in non-ferromagnetic.

CAT#	Description	Dimensions
#MBS-65	Standard	16"w x 12"d x 41"h
#MBS-65NF	Non-Ferromagnetic	16"w x 12"d x 41"h

Included Handrail
Features a sturdy, 41", stainless steel handrail for extra patient stability!

MRI Narrow Double Step Stool with Handrail

Stainless steel construction. Non-magnetic and safe to use in the MRI environment. Has a 500 lb weight capacity. Stainless steel. Mat is featured in "MRI Green."

CAT#	Step Dimensions	Overall Dimensions
#MBD-63	16"w x 12"d	16"w x 12"d x 48.75"h

MRI Two-Step Platform Stool with Handrail

Stainless steel construction. Non-magnetic and safe to use in the MRI environment. Has a 500 lb weight capacity. Stainless steel. Mat is featured in "MRI Green."

CAT#	Step Dimensions	Overall Dimensions
#MBD-68	36"w x 12"d	16"w x 24"d x 48"h

MRI Wheelchairs

These wheelchairs feature 24" diameter wheels, 8" front casters. Burgundy upholstery. Smooth ride, rust-proof hand rims. Retractable wheel locks. Quick release seat belt. Sling style seat (bariatric: solid padded seat).

Standard MRI Wheel Chairs

MRI Transport Gurney

This Heavy Duty MRI stretcher has a 600 lb weight capacity and is made of stainless steel construction. MRI Conditional to 3-Tesla. Features flip-down side rails. Non-marring bumper pads. Four locking casters and 22" x 31" storage tray below. Available in Green or Black pad. Black is default color if no choice given at time of order. 2 year warranty on the frame.

#MBG-6SS (HEAVY DUTY) |

Pad Colors

Pad available in either **Green** or **Black**. Default color is black.

Gurney Specifications

- **Height:** 30.25"
- **Height of Rails:** 11"
- **Height with Rails Up:** 41"
- **Length:** 77"
- **Rail Length:** 57.5"
- **Width:** 29.25"
- **Back Adj. Range:** 0° - 75°
- **Number of Positions:** 13
- **Weight Capacity:** 600 lbs

MRI Non-Ferromagnetic Transport Gurney

MRI Non ferromagnetic folding gurney is made of aluminum construction. Comes with drop down side rails, 3" thick black mattress pad, 5" ceramic total lock casters and full surrounded rubber bumpers. Headrest is adjustable. Folds to 11". Features flip-down side rails. Backrest adjusts from 0° to 75°. Four locking casters. Stainless steel construction with a 600 lb weight capacity. 2 years warranty on frame.

#MBG-450 |

Flip-Down Rails

Easy to flip-down rails allow convenient loading and unloading of gurney

Gurney Specifications

- **Height:** 29.5"
- **Height of Rails:** 15"
- **Height with Rails Up:** 40"
- **Length:** 77.25"
- **Rail Length:** 39"
- **Width:** 27"
- **Back Adj. Range:** 0° - 75°
- **Number of Positions:** 111
- **Weight Capacity:** 600 lbs

MRI Gurney Add-On's

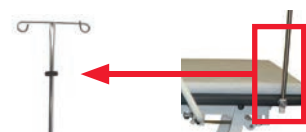

Available as additional add-on's to any MRI gurney. Simply add these CAT numbers at the time of ordering. Available options include: I.V.Pole Attachment and O₂ E-Tank mount. Additional charges apply. *Available for MBG-450 and MBG6SS*

NEW MRI Stretcher

This newly redesigned adjustable height stretcher is now available and approved for use with MRI! Featuring a new wider bed platform, increased weight capacity (up to 500 lbs.), gas spring operated adjustable backrest and hydraulic dual pedal pump for ease of elevation and patient comfort. Gas spring operated Trendelenburg feature. New folding cot sides meet FDA height requirements for bed rails. The heavy duty aluminum frame is non-magnetic.

#MBG-TR102 |

Key Features

- New wider bed platform
- Weight capacity increased to 500 lbs.
- Heavy duty aluminum frame is non-magnetic
- Gas spring operated Trendelenburg feature
- Hydraulic dual-pedal pump for ease of elevation and patient comfort
- New folding cot sides meet FDA height requirements for bed rails
- Comfortable custom 3" dual-layer stretcher mattress with RF welded seams to prevent fluids from contaminating the mattress
- Flame retardant, anti-microbial, SurCheck Fusion III, high-density mattress is resistant to organisms that degrade, stain or impart odors
- Meets open-flame standard of 16 CFR 1633 and CA 117 Bulletin
- Gas spring operated adjustable backrest
- Stretcher fitted with corner buffering for protection
- New and improved non-marking, Easy Steer 6" castors with foot operated brakes
- Finished in hardwearing epoxy powder coating
- Built-in IV pole with four fixing points included
- Built-in oxygen cylinder holder included

MR Conditional at 7T or less

Warranty Specifications*

- Pad/Moving Parts - 90 Days
- Hydraulics/Gas Shocks - 1 year
- Frame - 5 years

Gurney Specifications

- Maximum Height - 39"
- Maximum Height - 21" (to table top)
- Mattress Thickness - 3"

Approved for use with MRI!

MRI Transport Gurney

The lightest lift-in MRI gurney in the industry. This gurney adjusts to six height levels, enabling patient transfer from most beds and hospital treatment tables. The telescoping head-end, main frame section allows the Non-Magnetic gurney to be shortened for maneuverability around tight corners and spaces. Contoured Pad for patient comfort. Stainless steel construction with a 500 lb weight capacity. Features flip-down side rails. Backrest adjusts from 0° to 75°. Non-marring bumper pads. Four locking casters. Ships @ 300 lbs, motor freight.

#MBG-LCP |

Gurney Specifications

- Max Height - 40"
- Min Height - 9"
- Length - 79"
- Width - 24"
- Number of Casters - 4
- Number of positions - 8
- Weight capacity - 500 lbs

Flip-Down Rails

Easy to flip-down rails allow convenient loading and unloading of gurney

MRI PVC Transport Gurney

Healthcare grade, polymer plastic, economic PVC construction. Reinforced at all stress related areas. Features flip-down side rails. Deluxe Heavy Duty Threaded Stem Casters: four locking casters and two stationary. 350 lb weight capacity. Comes with 1" thick black mattress pad. Three weight capacities. Features flip-down side rails. Four locking casters, two or four stationary. Ships @ 150 lbs, motor freight.

CAT#	Description	Capacity
MBG-3PV	Standard	350 lbs
MBG-6PV	Bariatric	600 lbs

Gurney Specifications

- Max Height - 30"
- Min Height - 30"
- Length - 79"
- Width - 28"
- Number of Casters - 6
- Number of positions - 5
- Weight capacity - 350 lbs

Flip-Down Rails

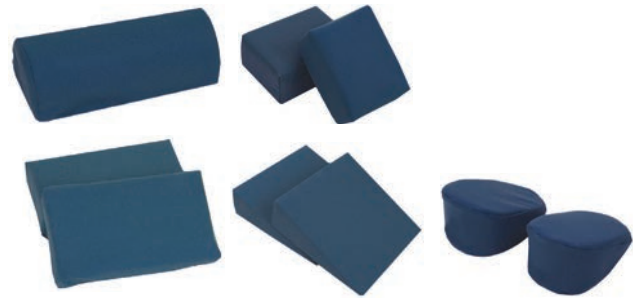

Easy to flip-down rails allow convenient loading and unloading of gurney

Comfort Positioners

Unique visco-elastic material molds to patient's body shape. Conforms to the table platform. Excellent radiolucent qualities. Meets specific requirements for MRI compatibility and safety with excellent radiolucent qualities. Anti-microbial cover with anti-slip undersurface is easy to clean and maintain.

Dimensions listed as W x L x H

CAT.#	Description	Size (W x L x H)
MFP-01	Rectangle Positioner Set	14" x 3" x 1"
MFP-02	Rectangle Positioner Set	5" x 3" x 1"

MRI Comfort Table Pads

These New Comfort Table Pads are designed to provide the optimal comfort for patients. Patients often complain about being uncomfortable during exams. This unique visco-elastic material is specifically formulated to maximize patient comfort in a thin form factor. This heat sensitive material molds to the patient's exact body shape and contours to evenly distribute weight and pressure. Pads feature a Permanent Antimicrobial Agent with cover seams sewn using coated nylon thread to minimize the risk of any biological contamination. Pad Covering is a Breathable Waterproof polymer fabric that's easy to clean with a standard disinfectant. Pads are Resistant to stains and are Latex Free and have excellent radiolucent quality. To increase safety, all pads have an anti-slip undersurface to keep the pads in place while patients are getting on/off the table. Available in a variety of sizes. Most common sizes shown below.

Anti-Slip Mat
Provides extra safety for patients getting on and off the table.

ANTI-STATIC BOARDS (black)

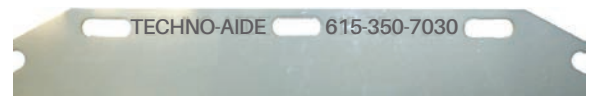

CAT#	Dimensions	Description
TBS-2372AS	23"(w) x 72"(l)	standard
TBN-1872AS	18"(w) x 72"(l)	narrow
TBB-3272AS	32"(w) x 72"(l)	bariatric
TBH-2332AS	23"(w) x 32"(l)	half

Engraved Transfer Option

Personalize your transfer boards for your facility. Each board can be CUSTOMIZED to make sure your boards come back to YOU!

#TBS-ENGRAVE

Restraint Straps

Super strong 2" nylon webbing. Secure snap buckle closure.

CAT#	Girth	Description
TBR-S72	72"	standard/half
TBR-N60	60"	narrow
TBR-B90	90"	bariatric

Lifting Straps

Convenient nylon straps loop through hand holds. Provides better grip. Provides extra length for better reach. Ships @ 1 lb.

#TBS-ST2 | Per Pair

Board Wall Rack

Two 6" pegs are angled to keep board from slipping. Mounting holes are on vertical centers. Steel with white enamel. Ships @ 4 lbs.

#TBR-2P |

Caution / MRI Signs

Durable plastic silk-screened signs. Double-faced tape is on the back for mounting. Signs give critical information to patients & technologists. Enhances safety with a front line written warning. Many states adopt certain signs as law as part of a good quality assurance program. Check your local laws or program requirements.

NEW MRI Safety Labels

These highly visible stickers ensure your MRI equipment stays in the MRI area. Ensures products are not confused for non-compatible devices in an emergency. Available in red and green to conform to your facility's safety standards as advised by the white papers for MRI safety. 25 pack comes with 6 large (4" w x 6" h), 7 medium (7" w x 1.5" h) and 12 small (3" w x 1" h) stickers.

#MBN-G25

#MBN-R25

Ferromagnetic ID Tags

Official MRI Ferromagnetic ID Tag. Tags indicate: "This Item Passes/Fails Ferromagnetic Detection Systems. 25 tags per pack. "Measures 6" h X 4" w. Slot on top is 0.125" x 3" to hang from an MRI product. Does not include hardware for hanging.

CAT#	Indicates	Per Pack
MBN-FP	"Item Passes"	25 Tags
MBN-FF	"Item Does Not Pass"	25 Tags

MRI Earplug Dispensers

MRI Swirl earplug dispenser has clicking mechanism for easier use and dispensing. Chute delivers ear plugs right into the palm of your hand. Eliminates the mess of individual packaging. Each dispenser is sealed and completely recyclable. Available in 250 count per plug dispenser. Mounting bracket and hardware included.

#MBD-250

#MBP-250

MRI Earplugs

The world's first foam earplugs are still the most widely used cylindrical earplug on the market today. Economical protection. CSA Class AL. Latex-free. Noise reduction rating of 29 dB or 33 dB. Bulk packaged as 1000 pcs. Color Yellow. **Dispenser base sold separately.**

#MBE-29

NRR: 29db

#MBE-33

NRR: 33db

Prism Glasses

These unique non-magnetic prism glasses allow patients to see the room outside of the magnet bore during the scan. A simple and cost-effective measure to keep patients comfortable and calm while being imaged. Standard and children sizes available. **MR SAFE.**

#MBY-PC

For Children
Included elastic
band adjusts for
a secure fit!

#MBY-PF

#MBY-PG

NEW Noise Guard Headset

This earmuff headset fits comfortable and securely over the ears, providing a full 29dB Noise Reduction Rating (NRR) to patients during their scan. Soft latex-free muffs are comfortable for patients to wear for extended periods of time. May be used with large sanitary covers for easy cleaning. Tested according to ANSI standards, this headset offers the maximum attenuation available to patients in the MRI environment.

#MBG-NGH29 |

NEW Earmuff Sanitary Covers

Slightly larger than earpiece for easy fitting onto MRI headsets. Made of rip-resistant fabric. Safely protects patients from cross-contamination during MRI scans. Strong elastic keeps cover in-place. White color.

#MDA-HSC |

1000 covers per pack

NEW MRI Headset Organizer

This wall-mounted headset organizer prevents damage and keeps MRI earmuffs easily accessible. The long hooks provide ample space to hang headsets and earmuffs. Constructed of lightweight polycarbonate for easy mounting and durability. Will hold 3 units. **Earmuffs and headsets not included.**

#MBP-ORG30 |

21" (W) x 3" (D) x 3" (H)

NEW MRI Headset Organizer with Storage

Keep headsets and earmuff covers stored together. This exclusive 2-in-1 organizer will keep these items together. Long hooks provide ample space to hang headsets with their cords and simple earmuffs. Constructed of lightweight polycarbonate for easy mounting and durability. **Earmuffs and headsets not included.**

#MBP-FSORG |

21" (W) x 6" (D) x 7.625" (H)

NEW Headset Organizer with Storage with Headsets and Sanitary Covers

Our new MRI Headset Organizer with Storage (MBP-FSORG) now available with 2 headsets and 1000 sanitary covers! The perfect bundle solution.

#MBP-COORG |

Includes our NEW MRI Headset Organizer above, 2 headsets and 1000 sanitary covers! The PERFECT bundle!

MRI Metal Detectors

NEW MRI Super Wand

The ONLY handheld MRI patient screening device capable of separately screening both ferrous and non-ferrous metallic items. Provides protection from both adverse magnetic field interaction and potential RF-induced metallic heating. Designed to be safer and more convenient than similar alternatives. Lightweight and cordless, this detector has three analysis modes. Features a control interface that can be personalized to refine analysis capabilities based on specific patient needs. Rechargeable battery lasts up to 24 hours.

MRI Super Wand

The SuperWand's exclusive 360 degree detection field provides uniform sensitivity and tip pinpointing to detect metal objects with extreme accuracy. The SuperWand gives patients peace of mind that they are free of any metallic objects. Accurate detection of all ferrous, non-ferrous and stainless steel items and other metallic objects. Easy ON / OFF battery cover. 9V battery (included). Easy access power switch and LEDs. **NOT MR SAFE.**

MRI Handheld Metal Detector

Save patients and staff from embarrassing and hazardous situations. Features large scan surface w/ sensitivity reduction switch. To be used outside the MRI environment. Easy ON / OFF battery cover. 9V battery (included). Easy access power switch and LEDs. Dimensions: 3.25" w x 16.5" l x 1.625" d. Weight: 17.6 oz. **NOT MR SAFE.**

Screening Magnet

This Powerful Rare-Earth Handheld Magnet is ideal for Magnetic Resonance Screening/Sites to screen patients and devices for possible ferromagnetic properties prior to entering MRI environments Zones III and IV. This magnet has been specially designed by experienced clinical and research MR practitioners and leaders in the field of MR safety to meet the needs of busy MR sites. Dimensions: 3.5" h x 3" w x 5.5" l. Product is red with silver lettering. **NOT MR SAFE.**

NEW MRI-Conditional Rappaport Stethoscope

MR-tested and equipped with three sound-collecting bells in large, medium and small sizes. Suitable for auscultation of infants, children and adults. Also suitable for fetal heart sound, breath sound and high and low hear sounds respectively, based on the area of auscultation and range of frequencies to achieve an optimal sensitivity of frequency response. Acoustically designed for exceptional sound conduction, this stethoscope features an updated profile, high portability and a multi-pocket bag.

Key Features

- Acoustically designed for exceptional sound conduction
- Suitable for use on infants, children and adults
- Comes with a multi-pocket bag
- Green color
- Latex free

MBP-STETH |

NEW MRI-Conditional Sphygmomanometer

MR-tested and equipped with three sound-collecting bells in large, medium and small sizes. Suitable for auscultation of infants, children and adults. Also suitable for fetal heart sound, breath sound and high and low hear sounds respectively, based on the area of auscultation and range of frequencies to achieve an optimal sensitivity of frequency response. Acoustically designed for exceptional sound conduction, this stethoscope features an updated profile, high portability and a multi-pocket bag.

Key Features

- Exceptionally strong housing with tripple-mounted shock-proof movement
- 50% larger insufflation bulb for fast inflation of cuff
- single-tube construction with innovative air pressure distribution system
- inflator spoon can be set for left and right handed users
- cuffs also sold separately
- sphygmomanometers are MR-conditional up to 1.5T

CAT.#

Description

MBP-SPYAD	Sphygmomanometer with Adult Cuff
MBP-SPYCH	Sphygmomanometer with Child Cuff
MBP-CUFFAD	Adult Cuff Only
MBP-CUFFCH	Child Cuff Only
MBP-CUFFTH	Thigh Cuff Only

Fire Extinguisher

MRI 5lb Carbon Dioxide Fire Extinguisher for Class B Flammable Liquids. Is Electrically non-conductive. Wall hanger is also included. Features all metal valve construction and rust free aluminum cylinder with a high gloss polyester powder red paint. Comes with a 5 year warranty. Rated to 11.7 Tesla!

MFE-CD |

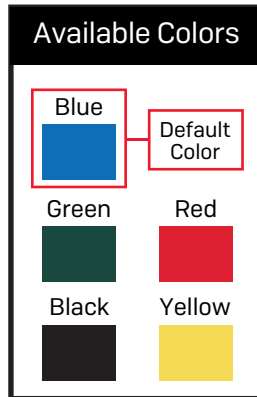

Extreme Durability!

Rust free aluminium cylinder with high gloss polyester powder finish!

Radiolucent Immobilizer Strap

Comfortably secures patient position and eliminates motion. Helps prevent patient falls without limiting respiration or circulation. Strap is a heavy gauge reinforced vinyl. Fast and easy to use hook and loop closure. Easy to remove in case of emergency. **Hook and Loop is black. BLUE is the default color. Colors are for Immobilizer Straps only.**

Elastic Immobilizer

6" wide strap is designed for superior stability. Strap extensions then cross over patient where they are secured with "hook" and "loop" closure. Three standard lengths; custom available.

CAT.#	Width x Length
RDF-084	6" x 84"
RDF-096	6" x 96"
RDF-120	6" x 120"

Traction Hand-Hold Straps

Straightening the legs easily applies traction. Hook and loop hand-hold straps provide secure grip.

MANUAL #RDT-HN

Hand-Hold Straps

Traction Hand-Hold Straps

Primarily for elderly or unconscious patients. Rigid foot plate provides stable, steady support.

AUTOMATIC #RDT-SH

Buckle Straps

Lowens shoulders for cervical imaging!

Multi-Modality Skin Markers

Provides an accurate reference point for MRI, CT, Therapy, Nuc Med, and PET procedures. Does not indent into the tissue or produce unwanted artifacts. These versatile markers can be used for marking masses, pain location, biopsies, or other areas of interest. Perfect for any modality with a clear accurate reference point. Easy to secure in place. Easy to remove. Manufactured with a medical grade adhesive. **MR safe.** Disposable. 50 per box.

MRI / CT

No center hole; appears as bright object on CT and MRI scans. Also highlights areas of interest for radiology and mammography.

CAT# MM3007 |
50 markers per box

MRI / CT / THERAPY / RADIOLOGY

2mm center hole suitable for conventional hypodermic needle. Highlights area of interest for Oncology and Radiology.

CAT# MM3005 |
50 markers per box

MRI / CT / NUC Med / PET

2mm center hole suitable for injection of radioisotope. Highlights area for Nuc. Med., PET, CT and MRI.

CAT# MM3003 |
50 markers per box

MRI Markers | For MRI & CT

Easily identifiable. Clearly and accurately communicates the area of interest or concern to the radiologist. Artifact free! Does not indent the skin, preventing a compromised image. 100% Latex-Free and hypoallergenic making it safe for patients. Markers are MR safe.

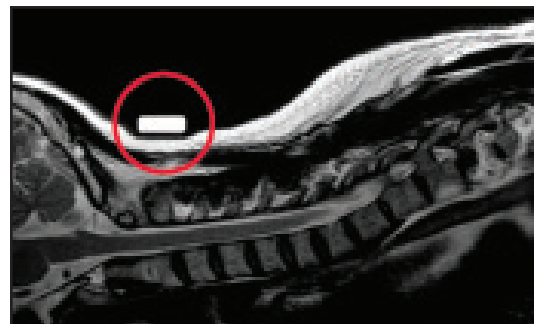

CAT# SDM-MR2 |
40 capsules per box

Capsule is 0.75"
