## Techno-Aide Best Fit Sizing Guide

**Techno-Aide Sizing Charts are based on universal body sizes.** But let's face it... nobody is average! A great apron won't fit like a pair of jeans or a suit. **Aprons are meant to fit multiple body types and sizes!** So, in order to get the "Best Fit for You," please consider the following when measuring yourself for a standard garment:

**PROTECTION IS PRIMARY:** Why are you wearing an apron? Protection from radiation! At Techno-Aide, we understand that comfort is important, but never as important as protection. Our aprons are designed to keep the user safe above all else. But who says you can't add a little style and comfort along the way?

**CIRCUMFERENCE CONSIDERATIONS:** When measuring for a Front Protection Apron, measure from one side of the widest part of your body, around to the other side - the actual distance you want protected. Then, tell us if that measurement is your chest, tummy, or hips.

**HEIGHT CONSIDERATIONS:** In relation to your circumference, do you have a long or short torso? We want to make sure that you are adequately protected!

**Notes About Measuring!**

Sizes shown for apparel (other than front protection) are **ACTUAL** body measurements.

All lengths are from the **sternal notch or waist** downward, depending on the garment.

**One Size to Fit Them All!**

**Don't get hung up with complicated customization!**

Standard sizes are designed to fit nearly every body type. **As shown to the right**, our standard Large Flex-Guard can be worn properly by three people with completely different body types!

Use our expert guides to find the perfect size today!

\*Each person is wearing a standard (non-custom) large Flex-Guard apron appropriately. Photos provided to show standard sizing fit. Apron shown in default 61-Sapphire material.

These industrial strength storage cabinets will feature heavy-duty casters for mobility and have 22 gauge welded steel construction. Includes a full width adjustable shelf and a full width hanger rod. The 230 lb. capacity shelf meets ANSI/BIFMA shelf capacity standards. Double doors lock with 3 point latching and recessed handles that prevent banging and catching with a flush surface. Powder coat finish. The 5" polypropylene swivel casters (2 with brakes) are attached with a 6"W heavy-gauge steel plate that bolts through to 1-1/4" angle iron inside the cabinet, both running the length of the cabinet. Steel caster components are zinc treated to resist corrosion. Total caster capacity is 1100 lbs. Rod capacity 500 lbs. Locks with key. Available in charcoal and gray. Item will shipped assembled.
