MEDIA	BENEFITS	PROTECTION	ATTENUATION	WEIGHT
Regular Lead	Most Economical and Recyclable	100% Lead	0.5mm Pb Equiv. Protection averages 97% Attenuation over 80,100,120 KVP	9-lbs (based on medium front protection apron)
Lightweight Lead	Lighter than Regular Lead and Recyclable	Lead-Tin	0.5mm Pb Equiv. Protection averages 96.8% Attenuation over 80,100,120 KVP	8-lbs (based on medium front protection apron)
“LMG”*	Lightest Weight, Lead-Free, Environmentally Friendly	Tungsten-Antimony	0.5mm Pb Equiv. Protection averages 96.6% Attenuation over 80,100,120 KVP	7-lbs (based on medium front protection apron)

*Media is IEC/EN 61331-1 / ASTM Approved.

FDA REGISTERED / Every batch of protective media is tested by an independent third-party health physics laboratory and actual attenuation figures reported.

AH APRON-HUB Accessories

Tools for Scanning and Labeling Protective Apparel

Stay one step ahead of the inspectors and enhance your QA! All new garments manufactured by Techno-Aide include a scannable QR Code Serial Number label for automated or manual tracking. However, we realize that you may have older, unlabeled garments or garments from another manufacturer. To update all your protective garments, we have designed this retrofit labeling kit so that your garments can be tracked utilizing the most up-to-date tracking technology available.

Protective Apparel Tracking and Inventory System!

www.apronhub.com

The exclusive online apparel tracking and inventory system from Techno-Aide.

All new Techno-Aide garments include a scannable QR code for automatic tracking. Upload garment data into your unique ApronHub portal for permanent inventory management. Receive alerts for inspection dates through a customizable format. Retrofit QR code tags onto your existing Techno-Aide or non-Techno-Aide garments. Track inspection history, location, user, etc., through a customizable reports menu. 2D Scanners are available through Techno-Aide or you can use your own 2D-scanner.

ApronHub has everything you need to quickly and easily meet the highest QA standards. For more information go to: www.apronhub.com today!

Most Popular Apron!

Buckle

3X	46"-50"	53"-57"	22"

Matching the Apron to You

Techno-Aide Sizing Charts are based on averages. But let's face it... nobody is average! So, in order to get the Best Fit for You, please consider the following when measuring yourself for either a Standard or a Custom garment:

- **PROTECTION IS PRIMARY:** Why are you wearing an apron? Protection from radiation! Some companies promise lighter weight garments, but their garments just don't measure up to proper specs. At Techno-Aide, we're much more concerned about your health and safety. Comfort is important, and while our garments are comfortable, comfort will always take a back seat to protection. Isn't that why you're purchasing Protective Apparel?
- **CIRCUMFERENCE CONSIDERATIONS:** when measuring for a Front Protection Apron, measure from one side of the widest part of your body, around to the other side - the actual distance you want protected. Then, tell us if that measurement is your chest, tummy, or hips.
- **HEIGHT CONSIDERATIONS:** in relation to your circumference, do you have a long or short torso? We want to make sure that you are adequately protected!

Getting the Best-Fit

If you don't think that our standard sized garments will fit you properly, we are pleased to offer you the chance to create your own size, to fit your specific body measurements. Just complete the form below and we will create your customized protective wear. Please note, that due to the nature of customized apparel, these garments cannot be returned. Please be accurate. Thanks!

Getting Accurate Measurements (all in inches)

BUST/CHEST: _____
Circumference around the widest part of your chest.

SIDE-to-SIDE: _____
The widest part of your body that you want covered by a Front Protection Apron. Please specify the this area (circle): chest / tummy / hips

WAIST: _____
Standard Apron: measure your waistline.
Skirt/Kilt: measure where you want the skirt/kilt top (may be higher than your regular waistline).

HIP: _____
Circumference around the widest part of your hips.

LENGTH: _____
FRONT APRON or WRAP-AROUND: _____
Sternal notch to just above the knee.

VEST/TORSO: _____
Sternal Notch to desired length below your waist.

SKIRT/KILT: _____
Desired skirt/kilt top (may be above your regular waistline) to just above your knee.

Please photocopy this page to submit your order.

Embroidery Sewn-In

Selected garments come with first line FREE embroidery! Add flexibility with an embroidered patch. Please specify what you want embroidered and which type style you prefer (see below). Embroidered items are non-returnable, non-refundable.

First Line up to 24-Letters: \$FREE!

Select a Style:

ALL CAPS
(default)

Block

Script

Additional lines up to 24-letters:

Embroidery Add-On Patch

This flexible option has your information embroidered onto a patch. Hook & Loop on the back of the patch and on the garment secure the patch in place.

#EMP (Patch)

(Patch above pocket)

Shoulder Strap (FREE Option!)

#EMS
\$-No Charge!

Simply ask for it with your order. Hook & loop Strap is attached to one shoulder and reaches across to the other. Helps keep shoulders high and comfortable.

Accent Colors

Optional BINDING Colors:

(The black or gray stripe on each fabric square is the default binding color for that fabric.)

Optional EMBROIDERY Colors:

Things to Remember

CARE AND MAINTENANCE:

Always hang your garment on large diameter hangers. Do not wad or fold your garment, as that may weaken the level of protection on the folded seam. Do not store sharp objects in the pockets or store the garment on top of a sharp object.

WARRANTY:

Two-Year Warranty on materials and workmanship.

Recycle

Techno-Aide will gladly accept your old, leaded Techno-Aide Brand aprons for recycling. Call for a "Recycle Return Authorization." There will be no charge to you; we only ask that you pay for your own shipping. "Lead-Free" apparel is environmentally friendly and does not need to be recycled.

Mobile Tilt & Rotate Image Receptor Holders

Standard arm length provides maximum stability.
Fully articulating holder for a variety of receptors.
Weight limit for both Series-B and Series-C is 12-lbs.
See additional specs on page 32.

Mobile Non-Tilt, Non-Rotate Holder for Heavy Receptors

Features a fixed position holder (non-articulating) for stability of heavier receptors.

Weight limit for both Series-B and Series-C is 22-lbs.

See additional specs on page 32.

Mobile Tilt & Rotate Extending Arm Receptor Holders

Extends image receptors 11" to 23" from post. See additional specs on page 32.

Heavy DR receptors may pose a tipping risk when fully extended. Extended weight limit for both Series-B and Series-C is 12-lbs.

2-Step Weight Bearing Platform

Allows for weight bearing imaging of the knees, ankles, and feet. Three receptor slots on the top platform and two slots on the bottom platform. 52" high safety rail provides for patient stability. Choose from two platforms: Comfort Top: gray, high-density crosslink closed cell foam for comfort and support. Durability Top: black, high-density, solid polyethylene with anti-slip matting. 350-lb. weight capacity. Platform heights: 11½" and 16¼". All steel frame with 30"l x 20"w base.

Panel Protectors

Protect your investment with our DR Panel Protectors. Each protector contains three layers of your choice of impact-resistant material or carbon fiber for increased weight capacity. These protectors are designed for both tethered and wireless panels, and also include custom utility ports. Includes rounded corners for safe handling and the patented positive lock mechanism to prevent accidental panel pop-outs. Lightweight design makes for easy carrying and one-handed operation.

MRI Non-Ferromagnetic Sandbags

Custom upholstered sandbags with supportive handles help with patient positioning. Non-ferrous, non-magnetic, MRI Safe bags come in five weights in order to provide the ideal set-up. Order individual bags or one set that includes one of each size bag for a total of five bags.

Set of All Five Bags
#MSB-NFST

Types of Positioning Sponge Foam

Techno-Aide manufactures and provides FOUR different types of sponge foam that meet a wide range of needs to ensure proper patient positioning, imaging efficiency, and accuracy. All sponges are radiolucent and fire-retardant.

Standard Foam (STD) : standard open-cell foam for general positioning. Color: light green. Shown on pages 54-65.

Firm/Bariatric Foam (FRM) : a higher density open-cell foam than standard foam, and is used to support larger/heavier patients for positioning. Color: light green. Shown on pages 60 & 64.

Closed Cell Foam (CLSD) : extra firm closed-cell foam resists fluid absorption. It can only be custom ordered and is limited to a gray rectangular block up to 4” thick. Typically used as weight-bearing.

Radiolucent Gel Pads (GEL) : radiolucent gel pads that aid in pressure distribution. Made of non-conductive cross lined polymer that will not leak, ooze, or evaporate. It is also tear and puncture resistant. Shown on pages 70-71.

MORE INFORMATION!
To compare Techno-Aide sponge imaging to other brands, watch the slide show and video from this link.

COMPARE TO CFI
Techno-Aide offers compatible options for most sponges and pads formerly offered by CFI.

Positioning Sponges are Available in these Finishes:

NON-COATED

Non-Coated Standard

Basic, open-cell positioning sponge shown above (STD). Pages 54-65.

Non-Coated Firm/Bariatric

Firm, open-cell positioning sponge shown above (FRM). Pages 60 & 64.

Non-Coated Closed-Cell

Closed-cell positioning sponge (CLSD) shown above. Custom only.

COATED

Coated Standard

Standard foam (STD) with cleanable, fluid-resistant coating. Minimal shadowing with low attenuation. Light green. Pages 54-65.

Coated Firm/Bariatric

Firm foam (FRM) with cleanable, fluid-resistant coating. Minimal shadowing with low attenuation. Light green. Pages 60 & 64.

Coated Closed-Cell

Closed-cell positioning sponge (CLSD) shown above with a clear coating for added fluid resistance and easier cleaning. Custom only.

COVERED

Vinyl Covered

Firm support foam (FRM) sewn into a covering of durable royal blue upholstery vinyl. Pages 66-68.

Heavy Duty Vinyl Covered

Firm support foam (FRM) sewn into a covering of nylon reinforced heavy vinyl. Blue or black. (Not shown in catalog.)

Healthcare Fabric Covered

Custom covering that features black 4-way stretch fabric that is anti-bacterial, anti-fungal, soft, and comfortable. Custom only.

Revolutionary Design Minimizes Ghosting and Line Artifacts!

Stealth-Core™ sponges have been designed with unique angles to offer artifact-free viewing and increased stability.

Stealth-Cote™ sponges include a proprietary coating to add cleanability and durability to every sponge and includes antimicrobial protection.
(The **Stealth-Core™** and **Stealth-Cote™** sponges are Patent Pending.)

#TBC-2214
Lateral Decubitus Positioner Kit
Pad: 20" x 13" x 3"

This KIT includes a 90° support with hook and loop stability straps and a YVFK decubitus bolster to aid in cross lateral examinations. The pad assures the patient is elevated into the imaging field.

#YVWS
Curved Wheelchair Chest Bolster
18" x 20" x 5"

The YVWS and the YVF41 (sold separately) are both designed to be perfect for chest x-ray positioning of wheelchair patients.

#TI-SET
DEXA Positioning Kit
KIT includes:
(1) "A" Frame Foot Splint
(1) YVFJ Head Bolster (8" x 12" x 3")
(1) YVFQ Leg Bolster (20" x 20" x 12")

The large bolster aids in positioning the AP lumbar spine. The small head bolster and 15° "A" frame splint lock the feet into position to abduct both legs to hold full extension at the knees and hips.

MRI Positioners

Unique visco-elastic material molds to patient's body shape and conforms to table platform. Meets specific requirements for MRI compatibility and safety with excellent radiolucent qualities. Antimicrobial cover with anti-slip undersurface - easy to clean and maintain. Warranty: 3-months.

Additional MRI Positioners can be found on page 50.

GEL Patient Positioners

Radiolucent Gel Pads aid in pressure distribution without bottoming out. These pads are made of a solid, non-conductive, cross lined polymer that will not leak, ooze, or evaporate and is resistant to punctures and tears. Each antimicrobial, anti-bacterial pad is hypoallergenic, latex-free, silicone-free, and plasticizer-free, and will not harden over time. Following the instructions, the pads can be heated and cooled. Note: 0.25" thick gel is equivalent to .051mm Aluminum.

FLAT PAD POSITIONERS

Protects skin from pressure sores and ulceration. Great for short term and long term situations.

Extremely versatile positioners are soft on the surface, but firm inside where it counts. Each sandbag provides exceptional patient support as well as increased patient stability.

Sandbags

All sandbags are filled with sand and are ready to use. Heat sealed inner sleeve prevents the leakage of sand. All seams are sewn and tear resistant. Deep green outer cover is heavy gauge, reinforced vinyl. Every sandbag includes a reinforced webbing handle.

Custom Sizes Available!

Includes weight ID tag

Sandsocks

Sandsocks are loosely filled sandbags that contour to a broad range of shapes and forms. Stabilizes hard-to-hold and irregular anatomy. No need for additional person to hold the patient. Double seams for strength and longevity. Flexible, heavy gauge, reinforced vinyl. Only available in "honey" color.

Includes weight ID tag

(A) Table Pad Foam Types:

Comfort Foam: standard table pad foam. Great for basic table pads and is available in a variety of sizes and thicknesses.

Firm Foam: higher density foam pad than standard foam in order to provide more patient support.

Memory Foam: a bottom layer of 1" comfort foam is bonded to a top layer of 1" 5.5-lb memory foam for superior comfort. Great for long procedures and sensitive patients.

(C) Table Pad End Finishes:

Tapered End with Grommet : standard closure; side seams may be sewn or fused (depending on material) with a tapered end closure for brass grommets.

Premium Box Corner : completely sewn covering that features squared finished corners.

(B) Table Pad Cover Materials:

Standard Vinyl (light blue only): a durable pad covering that is economical and easy to clean.

Nylon Fabric (see colors on p.25): nylon coverings offer the greatest variety of solid and printed fabrics. Durable and liquid repellent.

Upholstery Vinyl (see colors on p.78): extremely durable and very easy to clean. Choose from six colors.

Heavy Duty Reinforced Mesh Vinyl (blue or black only): nylon filament mesh provides a rip-stop covering for high use pads.

Healthcare 4-Way Stretch Fabric (black only): pliable and resilient, antibacterial, antifungal covering.

Putting the Options Together:

pads	page no.	(A) foam type	(B) cover mat'l	(C) end finish

Portable Blanket Warmer Bags

Holds 2-3 Blankets
#BWS-03

Holds 4-5 Blankets
#BWS-05

Holds 6-7 Blankets
#BWS-07

All blanket warmer bags are IEC 60601-1 Medical Accessory Compliant.

Designed for radiology, surgery, outpatient, ER and EMS, these specially insulated blanket warmers keep warmed blankets warm. The durable and washable nylon exterior bag features a handy hook and loop closing flap. The removable interior heating elements keep the temperature at a steady 130° - 140°F when plugged into an optional, low voltage power supply (12vDC, <50w adapters sold separately). These lightweight and portable bags are designed and assembled in the USA and come with a 1-year warranty.

Optional AC Power Supply
#BWS-ACS

Optional 12v Cord Adapter
#BWS-12A

Blanket Warmer Cabinets

Designed for radiology departments, interventional suites, ER and OR, mammography, ultrasound, CT outpatient clinics and surgery centers, these stainless steel blanket warmers are adjustable from 98° to 180°F (37° to 82°C) with the help of an intelligent 4-digit LED controller. With no moving parts and an audio-visual temperature alarm, these heavy duty units are designed for safety and built to last. All three units come with hospital grade power cords and the two larger units include locking casters. Operational at either 120VAC or 220VAC, all three units are UL & CSA approved.

Traction Straps

MANUAL #RDT-HN

Straightening the legs easily applies traction. Hook and loop hand-hold straps provide secure grip.

Lowers shoulders for cervical imaging.

AUTOMATIC #RDT-SH

Primarily for elderly or unconscious patients. Rigid foot plate provides stable, steady support.

Mammography Biopsy Chair

Ideal for use as a procedural chair or treatment table. The chair's versatility allows it to be used for pre-induction, transport, treatment, and recovery. Easy controls from either side of the chair allow height adjustment for optimal patient positioning. Seat height ranges from 23.5" to 31.5". Premium 5" Tente casters make for easy maneuvering. Backrest and leg section adjust from 90° upright to full spine, and 10° Trendelenburg. Features fold-down handrails and 3" comfort mattress. Weight capacity: 325 lbs.

#CRH-MBC
(Call for Price)

Video Fluoroscopic Chair

Ideal solution for radiology, mammography, and transport. Specially designed back has removable section to accommodate the space confinements of large imaging equipment. Easy controls allow height adjustment and full swivel for perfect patient positioning. Seat height range: 23.5" to 31.5". Premium 5" Tente casters make for easy maneuvering. Backrest and leg section adjust from 90° upright to full supine, and 10° Trendelenburg. Features a removable back section and 3" comfort mattress.

with seat rotated for increased imaging capacity.

CRH-VIC
(Call for Price)

Defecogram Chair

Designed for use for patients with evacuation dysfunction. Defecography is a dynamic radiological examination that produces an anatomical depiction of the changes in the rectum and anal canal, and provides physicians with functional information about the movements of the pelvic floor at rest, during voluntary contraction, and with defecation. The chair allows radiography of a patient's bowel movement in radiology, rather than the more costly MRI/CT.

300-ib capacity unit includes locking casters, removable 10-qt basin, wrap around skirt for basin modesty, and a 9" raised heel support. Manufactured of Schedule 40 1¼" healthcare-grade PVC, this chair is non-returnable and offers a one-year warranty. Made in USA.

Sterile Equipment Drapes

Take the guesswork out of selecting the correct sterile drape for your specific model C-Arm. Let us know which system you have and place your order. Our range of our drapes have been form-fitted for C-Arms to cover the image intensifier, x-ray tube, and flex arm, helping you eliminate the frustration and time of buying the wrong drape. Each drape is manufactured from 2 mil clear polyethylene and is latex-free. Each drape is designed to be durable and budget-friendly.

cat. #	description	qty
SED-4002	Elastic-end drape for Mini-C-arms: Officemate, Fluoroscope I and Fluoroscope III with 3/4" FOV	40
SED-4003	Elastic-end drape for Mini-C-arms: Fluoroscan Premier/Encore, Fluoroscan/Hologic Insight, Orthoscan, Lunar Orca, OEC with all FOV sizes, Xi Tex/Xi Scan	40
SED-1001	Standard C-arm drape, 42" x 74" (compatible with full-size C-arms: OEC, Ziehm, Philips, Comed)	30
SED-1002	Consumable pack includes: C-arm drape, 24" x 20" footswitch cover, 36" x 36" image intensifier & x-ray tube cover, and 5 clips. Fits OEC 9600/9800/9900.	20
SED-1003B	Banded bag for 9" image intensifier, 30" x 30"	20
SED-1003D	Dome cover w/ latex-free elastic, 18" deep	20
SED-8004F	Foot switch cover, 24" x 20"	100
SED-8003F	Foot switch cover, 17" x 15"	100

Mammography Exam Capes

Maintains patient modesty and confidence. Provides protection against cross-contamination. Comfortable, non-irritating materials. Eliminates laundry and replacement costs.

White Cape

Open front/back. Soft 3-ply tissue. Size: 30" x 21". Color: WHITE. 100 capes per case.

True Wipes

A new standard for Lint-Free Wipes

Having passed the USP-797 clean environment testing, True-Wipes are ideal for lint-free cleaning of: CR/DR/CT/mammography screens, x-ray cassettes, work stations, PACS monitors, microscopes, lenses and general work surfaces. These highly absorbent 9" x 9" lint-free wipes can be used with screen cleaner, alcohol, bleach, and peroxide to clean and disinfect. Wipes are packaged in a resealable double bag to avoid contamination from typical box dispensers. Reinforces your vital QA standards.

#TW-200 (200 total wipes)

SANI-CLOTH® AF3 Alcohol-Free Wipes

Contains an excellent range of effectiveness. Cleans, disinfects, deodorizes & fragrance-free. Alcohol content: ALCOHOL-FREE (less than 0.016%). Recommended Contact Time: 3-minutes or less. Commonly used for **MAMMOGRAPHY, ULTRASOUND and most other IMAGING EQUIPMENT**. PLUS daily use items like table pads, sandbags, coated sponges, transfer boards, aprons, shields, vinyl straps... you name it. Meets CDC, OSHA and CMS Tag F441 guidelines.

cat.#	wipe size	quantity
GWP-WAF	6" x 6¾"	tub of 160 wipes
GWP-WAFCS	6" x 6¾"	case of 12 tubs

SANI-CLOTH® BLEACH Wipes

Ideal for disinfecting high risk areas endemic with Multidrug-Resistant Organisms, Clostridium difficile spores, Norovirus, MRSA, and 50 other pathogenic microorganisms. Recommended Contact Time: 4-minutes. Compatible with a wide range of surfaces and equipment. Meets CDC, OSHA and CMS Tag F441 guidelines with a 1:10 bleach dilution.

cat.#	wipe size	quantity
GWP-B12	6" x 10½"	12 tubs of 75 wipes
GWP-BB14	7½" x 15"	6 tubs of 65 wipes

EASY SCREEN™ Cleaning Wipes

Touch-Screen cleaner that "works at the speed of technology." Rapidly cleans dirt, grime, fingerprints and smudges from healthcare equipment. Helps prevent cross-contamination with a 70% isopropyl alcohol (IPA) solution. Commonly used for **Touch-Screens, Tablets, Lighting, and most other imaging equipment**. Effectively treats acrylic, polycarbonate, glass, stainless steel, and more.

Elite Style

Elite markers have the most DURABLE aluminum casing. RED for "R" markers and misc. words / BLUE for "L" markers. Provides the best in QC!

REFERENCE: Merrill's Atlas of Radiographic Positioning and Procedures, 9780323073219, text extract, "Each radiograph must include an appropriate marker that clearly identifies the patient's right (R) or Left (L) side. Medico-legal requirements mandate that these markers be present. R and L markers must be used with CR and DR digital imaging. The development of digital imaging and the use of CR and DR have enabled an environment in which the R and L markers can be placed on the image electronically. This is not recommended because of the great potential for error and legal implications. Anatomic markers should be placed on the CR cassette or DR table similar to screen-film cassettes."

Image Scaling Marker Device

Scaling a digital image is mandatory in order to assure the highest level of diagnostic accuracy. It is critical to know the difference between the size of the anatomy shown on a digital monitor as compared to the actual anatomy. An easy to use, easy to clean, easy to understand calibration tool is a must, and a Rollr Precision Marker is the answer!

The patent pending radiolucent sphere holder and a size indicator sphere come together to allow perfect visibility of the sphere on the image as taken from any direction. A millimeter marker on the sphere holder indicates the size of the sphere that is being used.

The suction cup base allows the unit to be firmly secured to a flat table or a vertical wall bucky board that is close to the patient. The small footprint of the suction cup does not interfere with the patient, the technologist, nor limit its use.

The flexible gooseneck arm is perfect for positioning the calibration sphere as close as possible to the critical anatomy. The arm is covered with a smooth, crevice-free surface that allows for easy sanitation.

The autoclavable unit comes with the suction stand and one calibration sphere. Additional spheres can be bought separately in packs of six (6).

Full unit with 25mm sphere

Sphere easily slides in and out of socket.

CM Ruler Markers

The personalized R & L marker sets or the stand alone 3cm ruler are specifically designed for Teleradiology, CR and DR Imaging, where the image-size does not always match the life-size anatomy. Place a marker on the Receptor Plate and capture the radiographed anatomy. The image of the unique 3cm ruler gives an immediate visual and measureable cue as to the size of the screen image compared to the life size anatomy. Each marker has a lead 3cm ruler. Color coded: L-Blue, R-Red. High density lead characters.

Lead Letter Case

Injection Molded Box. 36 scoop-bottom compartments (for A-Z and 0-9). Side compartment for holder.

#XSLC-36

MARKERS

lead letter holders / sets

Ideal Cushion Marker

Double channel with cushions; imprint in the upper section of each channel.

#XSIC-21

Holder only. 3½" x 15/16"

#XSIC-22

Complete Set Includes:

- 1ea. holder
- 2ea. A-Z
- 4ea. 0-9
- 2ea. A, E, I, O, U
- 1ea. 36-letter case

(Replacement characters: 3/16" on 5/8" plastic tabs, offset. Reorder #XTIF-3658)

Eclipse Cushion Marker

Single channel with cushion; imprint above and below the centerline.

#XSEC-11

Holder only. 3½" x 15/16"

#XSEC-12

Complete Set Includes:

- 1ea. holder
- 2ea. R, L
- 4ea. 0-9
- 1ea. 36-letter case

(Replacement characters: 1/4" on 7/8" plastic tabs. Reorder #XTSF-1478)

Legal Marker

Double aluminum channels; imprint between the two channels.

#XSLG-21

Holder only. 3½" x 15/8"

#XSLG-22

Complete Set Includes:

- 1ea. holder
- 2ea. A-Z
- 4ea. 0-9
- 2ea. A, E, I, O, U
- 1ea. 36-letter case

(Replacement characters: 3/16" on 3/4" plastic tabs; Reorder #XTSF-3634)

Veri-Thin Legal

Double aluminum channels; imprint down and in between the two channels. Great for Bucky Trays!

#XSVL-21

Holder only. 3½" x 113/16"

#XSVL-22

Complete Set Includes:

- 1ea. holder
- 2ea. A-Z
- 4ea. 0-9
- 2ea. A, E, I, O, U
- 1ea. 36-letter case

(Replacement characters: 3/16" on 5/8" plastic tabs. Reorder #XTSF-3658)

Perfection

Single aluminum channel; imprint above and below the channel.

#XSPF-11

Holder only. 3½" x 15/16"

#XSPF-12

Complete Set Includes:

- 1ea. holder
- 2ea. R, L
- 4ea. 0-9
- 1ea. 36-letter case

(Replacement characters: 1/4" on 7/8" plastic tabs. Reorder #XTSF-1478)

Illuminated "In Use" Door Signs

Lighted sign focuses attention on exam room status. Enhances Radiation Safety by suggesting the risk of accidental entry into an active exam room. NOT a plug-in sign; must be hardwired @ 120VAC. Each sign measures 11½" x 2½" x 7¾"h. Shipping weight of each sign: 4 lbs.

cat.# (38")	description
SLU-XR	X-RAY IN USE
SLU-CT	CT IN USE
SLU-MR	MRI IN USE

L.E.D. "X-RAY IN USE" Sign
Power-saving LED light technology meets newer compliance demands. Hardwired sign is 11½" wide x 7¼" high. Shipping weight of each sign: 4 lbs.

cat.# (38")	description
SLU-XL	LED: X-RAY IN USE

Illuminators (View Boxes)

STANDARD

High quality, cost effective illuminators. Includes upper and lower Film Grips. Internal reflectors offer consistent illumination from two 15-watt fluorescent lamps per viewing area. Use as stand alone or wall mounted. Average light intensity is 2000 nits. 6 foot power cord. UL listed.

LED POWER SAVERS

Use **70% LESS POWER** than Standard Illuminators! High quality illuminators include upper and lower Film Grips. Internal LED array offers consistent illumination from a matrix of lights per viewing area. Use as stand alone or wall mounted. Average light intensity is 4250 nits. 6 foot power cord with hospital grade plug. UL listed.

a Sit-to-Stand Desk!**

Trackless Keyboard Support

Spring assisted height adjustment. 5³/₄" height adjustment on a trackless direct mount plate: -1¹/₄" to -7" under the surface. +10° to -15° tilt and 360-degree swivel. 19¹/₂" wide platform accommodates keyboard. Mouse platform can be placed on either side of the keyboard. Integrated gel palm rest.

#ZKKV-TLS1

Support frame extended

Support frame retracted

Keyboard Supports are not necessary on desks with dual surfaces.

Cable Management Channels

Pair of 24" "J" channels accommodate multiple cables and wires. Cables are quickly and conveniently stuffed into the channels for out-of-sight capture. Easily installs to the underside of desk with self-adhesive strips or screws (included).

#ZACM-CC

Universal CPU Caddy

Stores CPU underneath work surface. Features easy-access slide and swivel action. Adjustable width: 2¹/₂" to 8¹/₄". Adjustable height: 13" to 21". 100 lb weight capacity.

#ZEDA-CPUU

Mobile CPU Caddy

Stores CPU above the floor for easy access. Fits any CPU within a 3¹/₂"-8³/₄" width.

#ZEDA-CPUC

Locking Casters

#ZAC3-KE (includes 4 casters)
set of 4

Set of four 3" locking casters. Changes desks into mobile platforms. Easy installation; can be retrofitted. Not recommended for three-legged desks.

Add 3" to your desk height!
