

STANDARD APRONS (FRONT, FULL WRAP, VESTS, & SKIRTS)

Techno-Aide Standard aprons are fit using two measurements:

- Width measured at *the widest point of the body* applicable to the apron style
- Length measured applicable to the apron style

Techno-Aide's **EZ Fit Sizing Tool** is designed to provide these two measurements quickly and accurately without the need for measuring tapes. However, use the provided measuring charts below to verify your Techno-Aide fit if using a measuring tape is the only available option.

Visit Techno-Aide.com/ez-fit-sizing-tool for step-by-step measuring instructions and to order your sizing tool today!
